REVOLUTION

The date was March 23, 1775. British soldiers were on their way to put down so called rebellion on these shores. There was division about opposing such a powerful force. However a few people had enough vision to see the end results of a movement unchallenged. The Patriot Patrick Henry recognized the crisis facing the colonies and was moved to action. His speech in part ignited the hearts of the people to action.

“The battle, sir, is not to the strong alone; it is to the vigilant, the active, the brave. Besides, sir, we have no election. If we were base enough to desire it, it is now too late to retire from the contest. There is no retreat but in submission and slavery! Our chains are forged! Their clanking may be heard on the plains of Boston! The war is inevitable - and let it come! I repeat it, sir, let it come! It is in vain, sir, to extenuate the matter. Gentlemen may cry, “Peace! Peace!” -- but there is no peace. The war is actually begun! The next gale that sweeps from the north will bring to our ears the clash of resounding arms! Our brethren are already in the field! Why stand we here idle? What is it that gentlemen wish? What would they have? Is life so dear, or peace so sweet, as to be purchased at the price of chains and slavery? Forbid it, Almighty God! I know not what course others may take; but as for me, give me liberty, or give me death!”

The Revolution was on and a country was born!

It appears another revolution is on, not to birth a country, but to deface its political and religious heritage. Not since the days of the revolution has America faced such devastating times. The most liberal forefathers would not have allowed the present mentality to flourish in their days.

History reveals the fact that America was established upon Judeo-Christian values. Those values guided this nation through the murky waters of opposition, decision making and political activity. From the *Mayflower Compact* to the signing of the *Constitution* “In The Year Of Our Lord” it was obvious our forefathers recognized that a nation could not flourish and prosper without the superintending presence of an Omnipotent

God.

In the New England Colonies preaching set the pace for all activities including elections. On Election Day people attended church services to hear a sermon on the responsibilities of placing spiritually minded people into places of political leadership. The content of one half of the newspapers was sermons preached by the men of God to that generation. In part, our laws were based on the content of Scripture. It has been determined that 34% of our founding fathers made their decisions directly from Scripture and that 94% were influenced in the decision making process by the Scriptures.

How different than today's political culture. This country has become a one party system where deals are cut in the back rooms of congress and politicians are bribed to sell their votes. In his campaign, the president promised "openness" and that America would be taken into important hearings with CSpan cameras. Not only does Americans not know what is going on behind closed doors, but many of our representatives are voting on bills that they have never read. In one year, this president has spend more money than the former president spent in eight years with a war going on. He has elevated the homosexual movement into his administration without shame or embarrassment. (America's first openly "transgender" person has been placed in the Commerce Department.) He has determined to kill the unborn in an unprecedented manner by providing the necessary funding to destroy their lives and establish policies which would assure their destruction.

Today American is reeling like a drunken man away from God. In the words of Hosea; *“Strangers have devoured his strength, and he knoweth it not: yea, gray hairs are here and there upon him, yet he knoweth not.”* (Hosea 7:9) Both America and many of its churches have decided to be politically correct and abandon the *“faith once and for all delivered unto the saints.”*

Dr. Ron Baity, President

ANOTHER REVOLUTION

Another revolution may be on the horizon. Virginia, New Jersey and now Massachusetts have decided enough is enough. It is time to take America back. In a state where democrats outnumber republicans three to one, a landslide vote has taken place. A strong pungent signal that would rock the Richter Scale has been sent to Washington. True blooded Americans have spoken. The message is clear! Many are tired of socialism, big government, higher

ANOTHER REVOLUTION (CONT.)

taxes, increased abortion funding, healthcare, takeovers, back room deals, vote buying and stimulus packages. It has well been said by novelist Ayn Rand (1905-1982) "*The Constitution is a limitation on the government, not on private individuals...It does not prescribe the conduct of private individuals, only the conduct of the government...It is not a charter for government power, but a charter of the citizen's protection against the government.*" It was Thomas Jefferson who said; "*When the people fear their government there is tyranny; when the government fears the people, there is liberty.*" It seems that the current administration is living in a state of denial. The heart and soul of America is at stake. May its citizens from shore to shore become Patrick Henry's and refuse to compromise their convictions! It is time for another revolution, where the citizens of America roll up their sleeves, get off their blessed assurance, put their actions where their mouths are, go to the ballot boxes and send those people home who do not represent their values! It is past time for passiveness to be exchanged for backbone!

NEW SUPPORTING CHURCHES

We are thankful for the following churches who have placed Return America in their missions budget

Lexwin Baptist Church
Winston Salem N C

Christian Baptist Church

INTERESTING YEAR IN NORTH CAROLINA POLITICS

The old establishment in Raleigh has controlled politics in this state much to the detriment of its citizens. They have prevented the people of North Carolina the privilege of voting on the Marriage Amendment when well over 70% of those polled stated they would vote for the Amendment. The list goes on with one party control in Raleigh. However, recent polls are suggesting that change may be possible next election. A recent polling of all NC Senate Districts, rate 27 Districts leaning Republican. There are now 30 Democrats in the state Senate and 20 Republicans. Hopefully the Massachusetts revolution will come to North Carolina and give the citizens of this state the representation they so rightly deserve in Raleigh.

COULD WE BE LIVING ON BORROWED TIME

The death worshippers of radical Islam may have their sights on our country again. News reports have stated that female suicide bombers trained in Yemen may be on their way to these shores. Last week an unusually large number of people on the U. S. "no fly" list attempted to board U. S. flights. Between Saturday and Monday at least 6 people were stopped before boarding who were on the "no fly" list. It is highly possible that more information would be forthcoming if the present administration was not wrapped so closely with the Islamic community. This Administration has extended constitutional rights to those who seek our destruction. The Christmas Day bomber continues his silence because of the advice of a lawyer provided at tax payers' expense by the Obama Administration. One wonders whose side an administration is on when it extols the merits of Islam and goes half way around the world to discredit America. One could not imagine a Ronald Reagan or a Teddy Roosevelt bowing before self imposed dictators. Again, one is given pause to wonder at an American leader who at times refused to wear the American Flag or salute the Stars and Stripes. If America is such a burden and embarrassment and its Constitution so out dated, then rather than seek to radically change this country, we would suggest a change in citizenship. Rest assured there are still some of us who will not surrender our freedoms nor lower the Stars and Stripes. Old Glory still flies and by God's Good Grace will continue to do so! For those who see otherwise Cuba is only 90 miles off our coast and is accessible by boat or plane.

BOARD MEMBERS

DR. RON BAITY,

PRESIDENT
