OUR LEGISLATURE HAS FAILED AGAIN!

On November 19, 1863 Abraham Lincoln closed his short Gettysburg Address with the notable expression that "government of the people, by the people, for the people shall not perish from the Earth" President Lincoln conveyed a truth that has brought this Republic to become the envy of the world. We do not build fences to keep our people in but to keep the world out. The American dream is the envy of the world. Somewhere in the mix however the mind set of our Nation and especially Government has become polluted. Although we would never think that the word "Dictatorship" would permeate our society nevertheless many bureaucrats have become just that, little dictators. They promise to represent those who send them to the State House but have radical change of minds after they arrive. Consider the following facts of our Representatives in Washington. 90% of the American People believe we should pledge allegiance to the phrase "One Nation under God." Only 57% of Congress agree. 76% of Americans believe the Ten Commandments should be posted in the public sector. Only 57% of Congress agree. 82% of Americans believe that prayers should be offered in Public Schools. Only 50% of Congress agree. 72% of Americans oppose homosexual marriage. Only 48% of Congress agree. They truly are not representing the

majority of the American People.

Are we any better off on the State level. The answer is a resounding no! Even the most liberal polls suggest that the people of North Carolina would approve an Amendment to our State Constitution defining marriage as between "One man and one woman." For four consecutive years those in Raleigh who supposedly represent the people of North Carolina have thwarted the desires of the majority of the people of this State. They do so with a no care dictatorial attitude with no consideration to those who elected them to their prestigious perch.

Another case in point is the "Unborn Victims of Violence Act. This Bill was introduced last year in our Legislature. This Bill would provide "That a person who commits the crime of murder or manslaughter of a pregnant woman is guilty of a separate offense for the resulting death of the unborn child and to provide that a person who commits a felony or a misdemeanor that is an act of domestic violence and injures a pregnant woman that results in a miscarriage or stillbirth by the woman is guilty of a separate offense

that is punishable at the same class and level as the underlying offense." A minority of opposition from some women's rights and pro-choice groups influenced our representatives to send the bill to a J1 committee where it died a natural death. Our State is making national news headlines because of the murder of Marine Lance Cpl. Maria Lauterbach and her unborn child. Unfortunately we have no law to protect the integrity of the unborn here in North Carolina due in part to the fact that some of our Legislators do not see the importance of protecting the unborn children in our State.

THE DIFFERENCE THAT CAN BE MADE

How do we change the political landscape in our State? The answer is very simple. Get involved in the process! For too long the people who have the ability to make a difference have as the old Testament writer Haggai stated lived in their "ciled houses" while the society comes apart. Know your candidates and vote Biblical convictions. Twenty nine of our original signers had Theology

Degrees and acted in light of the Scriptures. There are 70 million evangelicals in our country that supposedly believe the fundamentals of the faith. However in the 2000 elections only 15 million voted. You can make a difference only if you cast a vote of conviction in the next election. Remember the future of America is at stake as never before. Get involved!

Christianity has been watered down until the solution is so weak that if it were poison it would not hurt anyone and if it were medicine it would not cure anyone.
